Report Includes

- An overview of the global market for catheters.
- Analyses of global market trends, with data from 2015, estimates for 2016, and projections of compound annual growth rates (CAGRs) through 2021.
- Coverage of important segments including cardiovascular, urological, neurovascular, intravenous and specialty catheters.
- Help determining the areas of catheter applications poised for growth and the factors driving this growth.
- Information on new products being introduced and their future impact on the market.
- Relevant patent analysis.
- Profiles of leading companies in the catheter industry.

Report Scope

BCC Research analyzed the current catheter market based on (1) projections of worldwide, geographic and type of product market revenues through 2021, (2) on current and historical usage, (3) geographical and socio/economic market trends and (4) new applications and products.

The scope of this study encompasses the five major application segments of the catheter market. BCC Research analyzed each type of catheter segment, determined its current market status and examined its impact on future catheter sales. After this analysis, growth forecasts between 2016 and 2021 were projected. Catheter material analysis, regulatory issues and the latest technological trends are also covered. Other influential factors such as patents and company profiles are discussed.

Unless otherwise noted, all revenue values are in U.S. dollars at the time the research was conducted and are not adjusted for inflation.

The reviewed products in the report are not exhaustive and a number of products have been in the market for years.
